WORK EXPERIENCE

Busboy at Souvlaki Bar	Oct 2023 – Present
Drive Marketing Inc Internship	Agu 2024 – Jan 2024

PROJECTS

Gym Management App <i>Vanier College</i>	<i>February 2023 – May 2024</i>
Developing a Maui application using C# for backend and XAML for frontend to optimize gym operations. Implemented secure login and registration systems integrated with a database for user and task management.	
Food App <i>Vanier College</i>	<i>December - 2024</i>
Contributed to a Flutter mobile app focused on global cuisine exploration, implementing user authentication, registration, and admin profile CRUD functionalities. Integrated a Dialogflow chatbot for interactive user assistance and utilized Google Maps API for dynamic user location display.	
Onyx Hotel <i>Vanier College</i>	<i>December - 2022</i>
Developed a C# application, Onyx Hotel, using Visual Studio. Designed to streamline hotel operations, the system features task management and user authentication functionalities. Implemented a SQL database for user login data and management of tasks and bedrooms.	

SKILLS

Programming Languages: C#, Java, JavaScript, HTML/CSS, PHP, SQL, Xaml, .Maui,
